🪪 PROFILE

As a software developer with **experience from two companies** in full-stack development, I am deeply passionate about problem-solving, writing clean code, and **working efficiently under pressure** and time management. My experience in **sales management** and owning a business as a **freelancer** has equipped me to excel in ambiguous scenarios where I prioritise both user happiness and affected outcomes.

💼 PROFESSIONAL EXPERIENCE

Singularico, Full stack Developer, Tel Aviv
present

I play a key role as a full stack web developer in a dynamic startup company. Collaborated with cross-functional team to ensure seamless integration of front-end components.
- Toolset used: **JavaScript , Typescript , Next.js , Node.js, MUI , MongoDB**

NINA, Full stack Developer, Tel Aviv
2023
I developed comprehensive software solutions encompassing both front-end and back-end components for Nina Company, resulting in a notable 70% reduction in information retrieval time, thereby enhancing the efficacy of their product offerings. My contributions played a pivotal role in fostering the company's overarching success.
- Toolset used: **JavaScript , Typescript , React , BitBucket , Heroku , AWS, Node.js , Scss**

Freelance, Founder & CEO | Mar 2016 – Oct 2023
- As the proprietor of a **low-voltage** communications enterprise, I have steadfastly adhered to a stringent regimen while showcasing expertise across various domains, encompassing inventory **optimization, strategic marketing**, and **financial stewardship**. My endeavors in the realm of communication, coupled with a nuanced **comprehension of network** intricacies and adept **data analysis**, have also fortified my role as a software developer, amplifying the prospects for academic and professional accomplishments whilst delivering unparalleled customer service.

To Go, Sales Manager, Jerusalem
Nov 2014 – Mar 2016
- After completing my military service, I entered sales as a Deputy Manager and swiftly rose to Manager at a smaller store. Within a year, I managed operations at a flagship location, earning **Manager of the Year for notable success**. Our store led in manager satisfaction, reflecting my **unwavering commitment to excellence**.

English

🧩 HOBBIES

DIY, Gaming, Books

• As a manager, I excelled in talent acquisition, optimizing team performance and ensuring effective **resource management**. Given the opportunity, I successfully launched a new store, earning another Manager of the Year accolade for my pivotal role in its inception.
• In summary, my journey from soldier to esteemed manager has been marked by rapid advancement, notable achievements, and a consistent ability to inspire and deliver exceptional results.

📂 PROJECTS

Road of Glory ⧉
I was the head of the team for a group project. In the Backend setup I was the main programmer

Kanban IVI ⧉
During my time at INT College, my team and I developed a project management tool similar to Kanban. We utilized TypeScript, Node.js, and MongoDB as the foundational technologies for building this tool.

Portfolio ⧉
A Portfolio project that contains all the projects I wrote that integrate React, DATABASE at a very high level

Nina Bottle Creator ⧉
I successfully managed the development of an end-to-end application as a full stack developer, adhering closely to a demanding schedule while upholding high standards for code quality and meeting all project manager requirements.

🎓 EDUCATION

• **iNT college - Institute of Innovation & Technology,** Full Stack

• **Udemy Self-learning,** Internet of Things (IoT)
